10036

INDEX TO VOLUME XX.

A

Acacia, Rose, 374
Accounts, farm, keeping, 356
Address of the Hon. John A. Dix at the N. Y. State Fair, 368
Advice to farmers, 205, 215
Agricultural chemistry, boys should study, 332, 367
— discussions, 297, 332
— and mechanical fair at St. Louis, 338
— fair of the American Institute, 338
— — Ontario county, N. Y., 341
— — Provincial (C. W.), 339
— — State, Illinois, 339
— — — Michigan, 340
— — — New Jersey, 341
— — — New York, 337
— — — Ohio, 340
— — — Pennsylvania, 338
— — — Vermont, 340
— — United States, 367
— science, some points in, 233
— society, how to ruin an, 241
— — N. Y. State, fairs of the, beneficial to the localities in which held, 297
Agriculture, American, Lord Napier on, 208
— and horticulture, progress of, 47
— as a profession, 11
— general importance of, 48
— in Ohio, 172
— necessity for making it a science, 276
— of the Rhineland, 61
— scientific and practical, 277
Aloes to destroy bugs, 191
Alpacas in Australia, 111, 303
American black walnut, 126
— elm, 347
— farmers—are they intelligent? 73, 142
— live oak, 219
— trees and tree-planters, 157
Animals, best doctor for, 112
— being poisonous to, 333
— fasting, charcoal for, 363
— importance of comfort to, 10
— kindness to, 47, 211
— raising or breaking, 211
Ants, to kill, 129, 159
Aphides, 267
Apple orchards, grafting old, 31
— — renovating old, 63
— stocks, 68
— tree borer, 95, 162, 192, 307
— trees, destruction of, 285, 348
— — grafting, 225
— — large, 55
— — lime on, 187
— — on high land, 319
— — planting and cultivation of, 253
— — shoots on, 226
— — useful insect on, 254
Apples, 120
— cultivation of, 52, 53, 54, 255
— gathering and keeping, 255
— most profitable varieties of, for an orchard, 52, 129
— rust on, 125
Ashes, coal, as manure, 268, 336
— leached, value of, 146
Ash, European flowering, 253
Australian items, 242
Austrian or black pine, 154

B

Bark-louse, 107, 366
Barley, cultivation of, 22, 87, 106, 208
— vs. corn in Western New York, 24
— when to cut, 201
— winter, 22, 68
Barn-owl, the, 188
Barn, side-hill, for cattle, &c., 12
Barns, plans for, 180
Barn-yards, constructing, 63
Barrels for fruit, 319
Beans, English, 303
— Lima, cultivation of, 31, 113, 191, 220
— on a sandy knoll, 156
Bee-house, ornamental, 313
Bee-moth, the, 172
Bees, feeding, 306
— in California, 241
— Italian, 365
— management of, 22, 113, 115
Bird's-foot trefoil, 109
Birds, management of, in the house, 88
— spare the, 365
— their usefulness, 128, 188, 268
Blackberries, 119
Blackberry, the New Rochelle, 349
Blackbird, the, 188
Black-knot, 37, 93
Black-leg in cattle, 148, 210
Black-tongue, 365
Blue-jay, the, 191
Book for emigrants, 68
Books, new, 97, 180, 195, 226, 260, 289, 324, 356, 378
Boys, study agricultural chemistry, 332, 367
Bread-making, 35
Breaking animals, 211
Breeding cows, 344
— fowls, 336
— stock, 181, 247, 344
Brine poisonous to animals, 308
Broom corn in Illinois, 336
Buckwheat and wire-worms, 206
— cultivation of, 188
Bugs on vines, specific for, 222
Burning clay sods for manure, 225
— land, 161
— the prairies, 303
Bustard, the great, 116
Butter-making, 35, 114
Butternut tree, the, 346

C

Cabbages for milch cows, 265
— transplanting, 216
Calves, lice on, 97
— rearing and management of 84, 142, 150, 181, 214, 247
Canary and other birds, management of, in the house, 88
Canary seed, raising, 194
Canker-worm, 129
Carrots for feeding poultry, 269
Cat-bird, the, 189
Cattle at the west, facilities for growing, 115
— black-leg in, 148
— breeds of, in England, 112
— Devonshire, 49
— fattening in winter, 82
— hoven in, 204
— improved breeds of, do not deteriorate in this country, 297
— keep, for their manure, 46
— Kerry, 364
— killed from eating corn-stalks chewed by hogs, 47
— prize—judges should be firm, 271, 343
— remedies for diseases among, 180
— soiling, 333
— tying up, 204, 365
— wheat as food for, 76
— yards, management of, 344
Cedar or cherry-bird, the, 189
Cedar tree, the red, 348
Celery, transplanting, 216
Cement for cisterns, 181
— — roofs, 174
Changing seed, 241
Charcoal for fatting animals, 303
Cheese-making from a small dairy, 84
Cherry, the winter, 156
Chick-a-dee, the, 189
Chickens, roup in, 270
Chinch-bug, the, 304
Chufa or earth-almond, 222
Cider and cider-making, 301
Clay, burnt, use of, as manure, 95
— soda, burning, for manure, 295
Clover and sheep on light soils, 202
— hay, feeding, 97
— on winter wheat, 105
— plaster on, 105, 205
— red, perpetuating, 209
— seed, depth for sowing, 105
— — cut all winter, 97
— — raising, harvesting, and cleaning, 24
— — saving, 314
— will plowing in, exhaust the soil? 363
Coal ashes as a fertilizer, 268, 336
Cold grapery, a cheap, 221
Colt, a remarkable, 193
Colts, best feed for, 370
Composting swamp muck, 336
Condition powders, 129
Conifers, pruning, 256
Contraction of the feet of horses—cause and remedy, 211
Cork oak, the, 152
Corn, applying manure to, 24
— as food for the million, 45
— cultivating too much, 268
— cultivation of, 137, 181
— distance for planting, 290
— fed to hogs—can it be made to pay east of Ohio? 28
— fodder, 81, 290
— for export, 45, 81
— — farm stock, 146
— — the west, 36
— hen manure for, 299
— hints on harvesting, 266, 343
— husking, 298
— June planted, 209
— planting potatoes with, 150
— plaster on, 289
— plowing land in the fall for, 299
— suckering, 36, 113
— stalks—cutting, curing, and feeding, 23
— — for milch cows, 369
— unripe, for seed, 110
— vs. barley in Western New York, 23
— — beans for sheep, 47
— — rye as food for hogs, 96
Cornfield, rats in the, 206
Corns, cure for, 159
Cottage, suburban, design for a, 278
Country house, design for a, 312
— residence, a, 88
— — design for a, 149, 183
Cows—hard milkers, 331
— improving the breed of, 344
— kicking, 297
— milch, corn stalks for, 369
— — feeding and management of, 304
— oil-cake for, 10
— soiling, 365
— sucking, cure for, 148, 307
Creeper, the, 190
Crops for soiling in Illinois, 169
— notes on the, 258, 269, 287, 309
— which enrich the soil, 108, 174
Cucumbers, raising, 124, 151, 191
Cultivator and horse-hoe—what is the difference between them? 259
Curculio, remedies for the, 51, 98, 158
Currants, 119
— and their cultivation, 349
Cutting hay for stock, 333
Cuttings, to insert, 374
Cypress, a variety of, grown in France, 252

D

Dahlia roots, preserving, 319
Dairy, cheese-making from a small 34
— management in Scotland, 304
— purposes, wheat farms for, 21
Deception in practice, 221
Devonshire cattle, 49
Digging about fruit trees, 222
Discussions, agricultural, 297, 332
Distillery-slop fatted beef and mutton, 146
Dogs, sheep-killing, cure for, 240
— vs sheep, 207
Dog-traps, 241
Domestic animals, kindness to, 47
Drainage for orchards, 281
Draining wet lands, 246
Drains, open, 48
— — vs. covered, 365
Drilling wheat, 206, 236, 248
— — and other grains, advantages and disadvantages of, 20, 21
Dropsical land, 247
Ducks and their management, 242
— young—should they be allowed to go to water? 314

E

Eggs in winter, how can hens best be kept so as to procure, 31, 181
— large, 259
Egg, small, 161
Elm, American, 347
Eucroide bartonioides, 221
European Flowering Ash, 258
Evergreen seed, 226
Experiments on grasses, with artificial fertilizers, 10
— — potatoes, with artif'l fertilizers, 9, 111

F

Fall plowing, 265, 306
Farm accounts, keeping, 336
— wheat, becoming a farm of all work, 273
— book, plan for a, 30, 36
— house, design for a, 215
— — in the rural gothic style, 149, 183
— labor—make it fashionable, 246
Farmers, advice to, 205, 215
— American, intelligence of, 73, 142
— sociality among, 12
Farmer's best friends, the, 128
— creed, 276
Farmers' club, how to get up a, 365
Farmer, the American, 279, 343
Farming compared with other vocations, 11, 12
— experimental, 75
— increasing necessity for making it a science, 276
— in England and France, 240
— scientific and practical, 277
Farms and farming in Western Virginia, 213
— model and experimental, 75
Feeding bees, 306
— farm stock, 361
— horses, 115
— milk cows, 304
Feed the land and it will feed you, 214
Fence, portable, 17
— posts, 85
Fences, rail vs. board, 16
— stone, construction of, 17, 148, 213
Flower garden in the formal style, design for, 282
— — work in the, 217
Flowering of potatoes, 241
— shrubs, propagation of, 323
Fodder, corn for, 81, 299
— sorgho injurious as, 308
Force pump, 288
Forest trees, destruction of, 311, 366
Forget-me-not, the, 220
Founder, 365
Fowl breeding, 336
— disease, 46
Freights from Lake Michigan, 209
Frosts, effects of the, 224, 258
— — — — on the grape, 251
— in Chautauque county, N. Y., 245
Fruit, barrels for, 319
— culture in Illinois, 333
— — — Massachusetts, 284
— — — — errata, 321
— drying, house for, 194
— from Indiana, 358
— give away your, 281
Fruit Growers' Society of Western New York, 51, 250, 316, 349
— growing in Missouri, 62
— stealing, to prevent, 254
— trade, 321
— trees, etc., deception among dealers in, 221
— — digging about, 222
— — effects of the weather on, 249
— — management of newly planted, 192
— — manures for, 349
— — propagating, 374
Fruits, preserving the color of, 194

G

Gapes in chickens, 113, 212
Gardener, does it pay to hire a, 158
Garden, fall work in the, 345
— seat, 351
— trash, 272
Garget, remedy for, 310
Gas tar for insects, 221
— — — peach trees, 186
— — — trellises, 284
Geese and their management, 334
Geranium, home of the, 251
German stocks, 284
Goldfinch, the American, 171
Gooseberries, sulphur and lime for, 187
Gooseberry saw-fly, the, 187
Grafting apple trees, 225
— budding, &c., 68
— old apple orchards, 31
— the peach on the cherry, 67
Grain-drills, advantages and disadvantages of, 26, 21
Grain-raising and stock-growing, 26
Granary, to prevent rats, &c., working in the, 213
Grape, effects of frost upon the, 251
— sulphur for mildew on the, 185
— summer pruning of the, 316
— the Catawba, 345
— — — in Iowa, 323
— — Concord, 123
— — Delaware, 123
— — — for general cultivation, 373
— — Diana, 123
— — Elizabeth, 372
— — Golden Clinton, 123
— — King, 123
— — Logan, 123
— — Northern Muscadine, 123
— — Rebecca, 123
— — To Kalon, 123
— — Union Village, 123
— vine, a handsome, 354
— — grafting the, 124
— — how long will it live, 194
— — pruning the,—when and how, 32
— — ringing the, 185, 250
— vines—underdraining—training, 323
Grape, Vineyard Culture of the:
Soil, situation, and exposure, 58
Preparation of the ground, 59
Laying out the vineyard, 90
Propagation of the vines, 90
Planting, 92
Treatment of the vines the 2d year, 121
— — — — — — 3d year, 121
— — — — — — 4th year, 122
What varieties to plant, 128
Trellis-training of the Isabella, 155
Grapery, cold, a cheap, 221
Grapes, 119
— best varieties of, for general cultivation, 54, 316
— cultivation of, 58
— early ripening, 63
— exotic, 153
— in Erie Co., Pa., 372
Grass, cutting by machinery, 178, 212, 274, 275, 343, 344
— land, applying manure to, 336
— land improves the soil, 36
— — improving permanent, 26
— — management of, 279
— — top-dressing for, 128
— timothy, best time to cut, 176, 277, 343
Grasses and clovers, 129
— cultivation of, 333
— manures for, 10
Grass-growing and stock-raising, 209, 343
Grasshopper feed, 208
Grasshoppers, an insect that destroys, 269
Grazing sheep, 270
Green-house, plan of a, 89
Guano islands, 241

H

Hard milkers, 321
Harrow for covering seed, 106
Harrowing in manure, 175
— potatoes, 119
Harvesting corn, 336, 343
— grain in Australia, 202
Hay, a few words on, 146
— best time to cut grass for, 176, 277, 343
— cutting, for stock, 333
— measuring, 208
— seed for hogs, 206
— — save your, 344
Heaves in horses, 288, 302, 337
Hedge, buckthorn, 355, 367
— plant, a new, 276
Hedges and screens, ornamental, 371
Hemp and its cultivation, 77
Hens, best food and treatment for, 310
— keeping, to produce eggs in winter, 31
— shoeing, 181
— to prevent, from sitting, 209
Herbaceous plants, 217
Highways, how should we improve our, 16, 113, 114, 144, 145, 186, 347
Hints on harvesting, 201
— — — corn, 296, 343
— — spring work, 106
Hoeing potatoes when wet, 208
— wheat in the spring, 44
Hog-cholera, 207, 249
Hog, history of the, 132
Hogs, cooking food for, 207
— fattening, 31, 343
— fed on acorns, 308
— large vs. small, for feeding, 82
— live and dead weight of, 71
— management of, 309
— will it pay to feed corn to, 22
Hollow horn, 332
Honey locust, the, 221
Hops and their cultivation, 79
Horn shavings as manure, 336, 365
Horse fair, Waterloo, N. Y., 344
Horses, best, to breed from, 370
— biting their cribs, to prevent, 209
— contraction of the feet of,—cause and remedy, 211
— feeding, 115
— pastuing, 268
— soiling, 239
— to prevent sore shoulders in, 209
— train, to walk, 181
— vs. mules, 248
— wintering, 29
Horse's age, how to know a, 305
Horse-shoe vs. sole tile for underdraining, 209
Horses' legs, washing, 179
Horse-taming—Mr. Rarey, 369
Horticultural notes, 62, 86, 117, 151, 191
— Society, Massachusetts Transactions of the, for 1858, 119
Horticulture, cultivate a taste for, 89
Hot-bed, how to make a, 88
House for drying fruit, 194
— small, design for a, 370
Hoven in cattle, 294
How to make a balky horse pull, 268
Hungarian grass, 111, 246, 311, 368
Husbandry, poor, 52

I

Impatiens Jerdoniæ, 122
Incrustations on steam boilers, to remove, 96
Inquiries and answers, 37, 67, 95, 128, 161, 194, 225, 259, 288, 323, 355, 370, 373
Insect, a useful, on plum and apple trees, 254
— on mulleins and in clover heads not the wheat-midge, 309, 366
— which destroys the wheat-midge, 142
Insects, aloes to destroy, 191
— lignite to destroy, 187

K

Kidney-worms in swine, 308
King-bird, the, 190
Kohl-rabi, 353
Kyanizing wood, 206

L

Labels, permanent, 252
Lands, clearing, from roots and bushes, 80
Lands, renovating worn out, 48
Letter from Col. Ware, 47

Letter from John Johnston, 62
Lice on calves, 97
— — cattle, swine, and calves, 111
Lignite to destroy insects, 187
Lima beans, cultivation of, 81, 113, 191, 220
Lime as manure, value of, 25, 367
— for wheat, 161
— in transplanting trees, 254
— on apple trees, 187
Linden, the golden-twigged, 218
Linseed-cake for heifers before calving, 306
— in England, 204
Live oak, American, 219
Locust, honey, 282
Lucerne, 109
Lupins for enriching the land, 174
Lupin, the white, 108

M

Madder for pasturage, 208
Manure, application of, discussion on the, 332
— applying to corn and potatoes, 24
— — — grass land, 336
— burning clay sods for, 225
— burnt clay as use of, 25
— cheap salt for, 268
— coal ashes as, 268, 336
— from well-fed animals, value of, 146
— harowing in, for wheat, 175
— hen, for corn, 299
— horn shavings as, 336
— keep cattle for their, 46
— lime as, value of, 25, 367
— making and preserving, 41, 46, 180
— mineral phosphate as, 169
— muck as a, 349
— power of soils to absorb, 233
— refuse of tanneries as, 300, 366
— relative value of liquid and solid, 96
— salt as, for wheat, 85
— shell and other marls as, benefits of, 25
— value of, 46
Manures for fruit trees, 349
— — grasses, 10
— — potatoes, 9
Manuring 332
Marls, benefit of, and best mode of applying, 25
Meadow land, pasturing, 148
Medicago lupulina, 109
Melon, Japan apple-pie, 54
— seeds, a popular luxury in China, 276
Melons, raising, 124, 151, 191, 217
— — without the use of hot-beds, 32
Mignonette, the, 250
Mildew, sulphur for, 185, 285
Milkers, hard, 331
Milk, heating new, 229, 269, 343
— keeping sweet, 308
— management of, 308
— rich—who can beat it? 37
Milking in silence, 268
Millet for food, 240
Missouri, climate, soil, &c., of, 28
Model and experimental farms, 75
Mowing machines, advantages and disadvantages of, 178, 212, 274, 275, 344
Muck as a manure, 349
— composting, 336
Mulching, 151, 158, 191, 207
Mules vs. horses for steady labor, 248
Murrain in cattle, cure for, 114, 148, 210
Music and cheap pianos, 352

N

No cattle, no manure; no manure no corn, 46
Notes for the month, horticultural, 62, 86, 117, 151, 191, 216
— — — — S. W.'s, 50, 81, 146, 175, 209, 244, 310, 341, 368
— from "Down East." 113, 247, 248
— — Maine, 179, 269, 309
— — Paris, 351
— — Pennsylvania, 55
— on the crops, 258, 287
— — — September number of the Genesee Farmer, 343
— — — October and November numbers of the Genesee Farmer, 366
— — — weather, 160, 193, 224, 258, 287, 321, 353, 376

O

Oak, cork, 152
— live, American, 219
— tooth, leaved Turkey, 55
Oats, African, 242
— how thick shall we sow, 107, 331
— rust on, 207
— sowing, without plowing, 139
— thick vs. thin seeding, 331
— vs. wheat for seeding in, 50
Oil-cake for cows, 10
Onion maggot, 225
Onions, autumn-planted, 238
Oregon and Washington Territories, 76
Orchards, apple, grafting old, 81
— — renovating, 63
— drainage for, 281
— plowing old, 319
Osage orange, 97
— — hedge, 323
Oxen, working, best breed for, 296

P

Paint, cheap, 181
Painting houses, 314, 367
Pasturage, madder for, 208
Pasture for cows, is it well to change the, 302
Pasturing early, 150
— horses, 238
— meadow land, 148
Pea-bug, to destroy the, 365
Peaches in Illinois, 157
Peach nursery, growing a, 222
— trees, gas tar for, 186
Pear, a fine, 36
— Beurre Giffard, 281
— blight, 251, 252, 285
— Bloodgood, 281
— Doyenne d'Été, 280
— Madeleine, 280
— orchard, T. G. Yeoman's, 315
— Osband's Summer, 281
— seedlings, culture of, 349
— trees, dwarf, pruning, 54
— — large, 55
— underdraining for the, 285
— Vergalieu, 37
Pears, culture of, 53, 54, 255
— dwarf, 64, 319
— — correction, 377
— for general cultivation, 316
— — orchard culture, 53
— gathering and keeping, 256
